

Hmong Community Survey

The Hmong associations recognize that you are an important member of our Hmong community. After over 35 years, the Hmong people in America are not refugees anymore. There are many questions such as ***HOW WILL THE HMONG ASSOCIATIONS CONTINUE TO BE EFFECTIVE IN DELIVERING HELPFUL SERVICES TO THE AMERICAN-HMONG COMMUNITY IN THE NEW GENERATION OF YOUNG AND OLD ?*** **YOU MUST HELP TO DECIDE.**

In order to continue providing quality community services to our Hmong population, your suggestions and inputs are important. The **Wisconsin United Coalition of Mutual Assistance Association, Inc** (WUCMAA), is now asking you to take a very important survey. ***WUCMAA is a Wisconsin Statewide Hmong association, whose current 13 members are the local Hmong associations in Wisconsin.*** This survey contains many questions that we feel your answers will help to improve your local Hmong association in serving the Hmong in your own community better. Your Hmong associations may not know what services you need, unless you and thousands of concerned young and old Hmong citizens say in one voice by doing a confidential and neutral community survey. We believe that all Hmong in America share the same concerns and hope. Therefore, you don't have to live in Wisconsin to participate in this survey. If other Hmong associations in other state wish to use the result of the survey to improve their programs and services, this survey can be shared with them.

You will not have to tell who you are. Your answers will be confidential. There are a total of 46 important questions, and we appreciate the times you will spend to give thoughtful and fair answers to the questions.

In order for this survey to reflect the general Hmong populations' majority opinion AND for your local Hmong associations to take the opinions seriously in designing future programs and services according to the surveyed opinions, we will need as many people to participate as possible. If you know any Hmong person who cannot read and understand this Hmong Community Survey in English, please help these persons to complete this online survey. You can also help us to collect the written survey by going to our website and print the paper survey. After you collect the answers, you may go to the below [link](#) to enter the answers into the online survey, or you can mail or fax the answers to us at the address below.

Thank you for your participation and cooperation. Please help us to distribute think message and survey link to your other world wide web and email connections.
